

# BUILDING THE HEART OF SUCCESSFUL SCHOOLS

**Pre-Conference: Wednesday, December 4, 2024**

**Conference: Thursday, December 5, 2024**

*Glacier Canyon Conference Center | The Wilderness, Wisconsin Dells, WI*

## **KEYNOTE SPEAKER - Dr. Brian Dinkins**

### **An Emotional, Cultural and Restorative Framework**

Emotionally Inclusive Practices is a framework used to increase EQ (emotional intelligence) and integrate emotion into every part of the educational experience. Emotions lay the foundation for behavior and impact how we see the world and respond in our everyday interactions. Developing the emotional intelligence of adults and children across our implicit bias, cultural consciousness and understanding of trauma gives us the awareness and skills to create restorative communities that prioritize all relationships.

Brian Dinkins is CEO of the National Institute for Child Empowerment, an organization that provides parents and students in disenfranchised communities with training, mentoring and advocacy to increase access to college and careers. Brian has served as a teacher, coach and principal in urban settings at a traditional public school, two charter schools and at a faith-based school. He is an RCD Certified Master Trainer, an associate professor and Director of Experiential Program for Preparing School Principals (EPPSP) at Butler University.
